

21st November 2025

PRICE INCREASE NOTIFICATION 5th January 2026.

Dear Customer,

We are writing to inform you of our price increase which will be effective from **Monday 5th January 2026**. This affects all Facing Brick & Brick-slip products supplied by Camtech.

Camtech Full Range – 3.75%

In recent years we have had many increased costs which as a business we have managed to limit passing on. The last few months we have worked hard to keep all increases to an absolute minimum as we continue to support everyone in the current market place. However we need to manage the on-going pressures of increased National Insurance and labour costs, whilst also tackling the increases from across our supply chain in Europe; in energy, taxes, raw materials & shipping.

To enable Camtech to provide our customers with reliable and trusted sourcing of high quality facing bricks, we must pass some of these costs on. With this adjustment we will continue to work with our manufacturing partners, shipping lines & hauliers to hold rates for as long as possible, whilst delivering on our assured service levels, material quality & product development.

This increase applies to all current orders and quotations being delivered from 5th January 2026 onwards and we would please ask for all relevant personnel to be made aware of this notification.

If you require a summary of you current on-going orders, please make your relevant Camtech representative aware as soon as possible, as all current orders and orders to be placed will be subject to these increases, unless agreed otherwise. Any special pricing arrangements will need to be discussed separately.

If you need any clarification, please discuss with your Camtech representative, who will only be happy to assist.

We would like to thank you for your understanding and continued support throughout 2025.

Yours Faithfully,
For and on Behalf of **Camtech Building Products Ltd.**

Richard Kipping
Sales Director
