Price Increase Notification

Dear Customer,

In recent months, we have been working hard to manage the impact of rising costs through enhanced efficiency, tighter cost controls, and improved processes. However, due to increases in energy, raw materials, labour & shipping, we will be implementing a price increase across our full range of bricks.

Soft mud & Extruded 4.5%

These increases will apply to all orders shipped on or after January 2, 2026.

Over the coming weeks, if you require a summary of any outstanding orders that will be affected by the increase, please contact your area sales manager. We will contact you separately to discuss any special pricing agreements and re-quote accordingly.

We remain committed to delivering consistent quality, reliable supply, and exceptional service. This adjustment will allow us to continue investing in our manufacturing capabilities and supporting your business in the long term.

If you require any further information, please do not hesitate to contact us or your area sales manager.

Could we please ask that you make all relevant personnel aware of this notification?

I would like to take this opportunity to thank you for your ongoing support and co-operation and we look forward to continuing our working relationship in the future.

Yours sincerely

Paul Lawson
Sales Director
