16th October 2026

**Dear Customer**

We would like to thank you for your continued business and partnership. At Forterra, we remain committed to providing the high-quality products and reliable supply that your business depends upon.

During 2026, we adjusted prices across our product range in response to the sharp increases in energy, fuel and operational costs experienced across our industry. Throughout the year, we have worked hard to minimise the impact of inflation on our customers through cost control initiatives, operational efficiencies and continuous improvement programmes. Despite these efforts, and having absorbed as much of these cost increases as possible, we continue to face sustained cost pressures across our business.

Energy remains one of the most significant costs within our manufacturing operations. This, combined with ongoing inflationary pressures across logistics and other input costs, has resulted in further increases in our cost base. Further pricing adjustments are therefore necessary to support the long-term sustainability of our operations and maintain the quality, service and reliability our customers expect from Forterra.

As a result, the following price increases will apply from 2 January 2027:

Bricks – 5.1%
Thermalite Blocks – 4.9%
Aggregate Blocks – 4.9%

Pricing for our Red Bank and Specials businesses will be communicated separately.

These price increases will apply to all orders placed, quotations issued and pricing agreements effective from 2 January 2027.

We understand the importance of pricing certainty and have worked hard to keep these increases to a minimum. These changes will enable Forterra to continue providing the quality products, service and dependable supply that customers rely upon, while supporting ongoing investment in our UK manufacturing operations.

We greatly value your business and appreciate your continued support. Should you have any questions or wish to discuss the impact of these changes on your account, please contact your Account Manager.

Thank you for your continued business. We look forward to working with you throughout 2027 and beyond

Yours sincerely,

**Kelvin Jones**
**Sales Director**
