

Dear Customer,

At wienerberger, we deeply value our partnership with you and remain firmly committed to delivering high-quality products, reliable service, and continuous innovation.

In line with this commitment, we are making significant investments across our operations — expanding capacity, advancing R&D, and accelerating our ESG (Environmental, Social, and Governance) initiatives. These efforts are designed not only to meet the growing demand for our solutions but also to contribute meaningfully to a more sustainable future — a goal we know we share with you.

Despite these substantial investments, we have managed to limit our price increases in recent years. However, due to rising costs across our supply chain, increases in energy and raw materials prices, as well as a rise in National Insurance and labour costs, we now find it necessary to adjust our prices.

wienerberger is therefore giving notice of a price increase effective **1st January 2026** as per the below summary by material group:

- UK produced Bricks **7%**
- Imported Bricks **8%**
- Brick Slips **3%**
- Brick Specials **7%**
- Clay Pavers **2%**

The price increase will apply to all the above detailed product groups purchased under agreements linked to the wienerberger trade price list and specific term deals linked to individual customers and products. These deals will be individually confirmed before the end of the year in line with the required notice period.

This price increase will apply to all new orders received on or after **1st January 2026**, and it will also apply to all orders and quotations held on our system awaiting dispatch at that point (including products currently on allocation). It is restricted to the above detailed products only, with separate arrangements in place for other wienerberger products where relevant.

You will receive our updated price list, and any updated price agreements, quotes by the end of **November 2025**.

We appreciate your understanding and continued partnership with us. We are confident that these changes will ultimately benefit both of our businesses as we strive for a more sustainable and efficient future together.

Thank you for your continued support.

Yours sincerely,

Nick Rudham
Director of Sales & Customer Experience
