wienerberger

Brick Price Adjustment Notification

We are writing to notify you of price increases across our brick, brick slip, specials and clay paver ranges, effective from **1st January 2027**.

As outlined in our previous communications, we absorbed exceptional cost increases throughout 2026 without applying any surcharges. Over the past year, we have continued to experience significant increases in energy costs, particularly oil and gas, alongside rising freight charges and broader inflationary pressures across our supply chain.

We have sought to mitigate these pressures through operational efficiencies and disciplined cost management. However, it has become necessary to adjust our pricing to ensure we can continue to provide the products, services and reliability you expect from us.

Product groups and price increases:

Class B / blue bricks	**6.0%**
All facing bricks & Specials	**7.6%**
Slips	**6.0%**
Clay pavers	**6.0%**

The increases will apply to the product groups listed above where pricing is linked to the wienerberger trade price list, including relevant customer-specific and product-specific pricing agreements.

We will provide you with our updated price list, along with any revised price agreements and quotations, by the end of November 2026.

The new prices will take effect for all orders received from **1st January 2027** and will also apply to any orders and quotations awaiting dispatch on that date, including products currently on allocation.

We continue to invest in our manufacturing operations to improve efficiency, support reliable supply and reduce our exposure to energy price volatility, including through planned investment in alternative fuels.

Thank you for your continued business and understanding.

Yours sincerely,

Nick Rudham

Director of Sales and Customer Experience
